Diana Ivanova

Research fellow at the School of Earth and Environment

Dr Diana Ivanova is a Research fellow at the School of Earth and Environment at the University of Leeds. As a part of the CREDS team, Diana’s work focuses on the environmental impacts embodied in consumption, and the supply chain and consumption changes needed to achieve sustainable living. Her work on the ShaRe project (Sharing Resources for mitigating carbon emissions and other environmental impacts) aims to better understand the ways in which greenhouse gas emissions and other environmental impacts are embedded in broader socio-cultural trends, particularly changes in household dynamics and resource sharing. Diana has a background in industrial ecology and economics.
