

1.

Harm Smit (Association Manager)

Harm Smit, a physical engineer by training, is a specialist in networks, particularly computer networks. In the fields of urban planning and mobility - and the close links between them - he has accumulated more than forty years of experience in the field, which owes much to his relations with experts such as Jean-Pierre Orfeuill and especially Marc Wiel; he assisted the latter in writing his last three books. He is a member of various associations in the Île-de-France region, including the coordination of the OIN Saclay Collective since 2010; in this capacity, he contributed to the book Citoyens de terre contre État de fer.
