Laurent Chapelon

Geographer

Laurent Chapelon is a Professor in the Department of Geography and Spatial Planning at Montpellier 3 University, where he is co-director of the "Transport, mobilités, réseaux" Master's program. His research at LAGAM focuses on the application of spatial analysis theories and methods to land-use planning, transport and mobility issues. He is especially interested in assessing the territorial performance of transport systems and intermodal and sustainable travel solutions. He has published the *Dictionnaire d'Analyse Spatiale* with J.-J. Bavoux (Armand Colin) and edited the book *Transports et intermodalité* (ISTE).
