About the symposium

We're pleased to announce that we will be hosting the Centre for Transport and Society (CTS) Symposium on Thursday 18 July 2024 from 09:30 to 17:00.

We have lined-up an exciting and thought-provoking array of talks and workshops which builds our four research strategic themes:

Governance and equity

Transport planning and placemaking

Technological change

Travel behaviour and the mobility experience

The symposium promises to be an opportunity to engage with transport research and its relevance to policy.

Mobility

For the Mobile Lives Forum, mobility is understood as the process of how individuals travel across distances in order to deploy through time and space the activities that make up their lifestyles. These travel practices are embedded in socio-technical systems, produced by transport and communication industries and techniques, and by normative discourses on these practices, with considerable social, environmental and spatial impacts.
