Fabienne Picard

Économiste

A lecturer in economics at the UTBM, Fabienne Picard is assistant director and a researcher at the IRTES-RECITS laboratory. Her work looks at systems of innovation and analyzes how new energy and transportation technologies are emerging and developing as part of the transition towards lowering carbon usage in society.

Projects with the Forum

Local policies of the mobility transition. The case of Belfort-Montbéliard

Robert Belot, Fabienne Picard, Régis Boulat, Bénédicte Rey
