Bruno Bessis

Ingénieure

Bruno Bessis, along with Franck Faucheux, is responsible for developing the 'EcoQuartier' initiative of France's Ministry for Housing, Regional Equality and Rural Affairs. They helped launch of the official EcoQuartier campaign in December 2012 and are leading figures in both a national association for eco-districts, which brings together local authorities involved in sustainable development, and a scientific committee devoted to the issue of sustainability in towns and cities.
