Les sens du mouvement - by S.Allemand, F. Ascher and J. Lévy

Chapô

“Les sens du mouvement”, the proceedings of a conference held in 2003, edited by Sylvain Allemand, François Ascher and Jacques Lévy, addresses the plurality of movement in general, and as it relates to urban mobilities in particular. As background, the question of the city – compact or diffuse – is discussed, along with its connections to society’s individuation and sustainable development.
