RGS - IBG 2018: Critical Geographies of Care, Mobilities, a Migration

Scientifique
- Conference session
Date de début : 28 Août 2018 11:00
Date de fin : 31 Août 2018 19:15
Lieu : Cardiff
Organisé par : Royal Geographical Society - Institute British Geographers
Source de l’information : http://www.rgs.org/WhatsOn/ConferencesAndSeminars/Annual+International+Conference/Annual+International+Conference

Currently there are almost 60 million health workers globally, but they are unevenly distributed across countries and this has pushed both care providers and recipients to engage in various forms of mobility and migration, further exacerbates global inequalities in the distribution of health. These mobilities also have profound effects for engaged with them, impacting on their socioeconomic capacities. Migration has increasingly became a way in which seek to improve their own social mobility, whether by accessing healthcare, or gaining skills and qualifications to overseas opportunities. Yet recently, as technological advancements have begun to facilitate certain elements of industries, the geographies and landscapes of healthcare are beginning to change. Furthermore, events such as the curtailing of mobilities, have already begun to negatively impact the ways the NHS can provide caring. The connections between care, mobilities, and migration are diverse, wide reaching, and vital to understand. This session calls for Papers may be based on international or local examples of mobility and migration. Themes can include (but are by limited to): · The migration of healthcare workers and patients · The migration of pharmaceuticals and other medic Therapeutic mobilities’ or the connections between mobility/migration and care (such as moving to different clim accessible landscapes) · The effects of digital, virtual, and technological advances in care on mobilities and migrati connections between care and mobility (such as reliance of systems on migration) · The spatialities of health lands

Informations pratiques :
Please send abstracts of up to 250 words to Maddy Thompson (m.c.thompson@ncl.ac.uk) by 5pm 2nd February 201

This session is sponsored by the Geographies of Health and Wellbeing Research Group (GHWRG)
